INTELLIGENT ADAPTIVE LIMITLESS PLATFORM

ABOUT US

Whitestein creates intelligent software to optimize business operations. We innovate technology ahead of the curve, bringing outcome-based software and a dynamic user experience without limitations to our customers that has a significant and sustainable impact on business operations. LSPS is successfully deployed in financial, government and other enterprise environments.

GOAL-ORIENTED BPM

Unique outcome-based design provides superior solutions for BPM and Case Management challenges

DYNAMIC EXPERIENCE

Themed designs and fluid application behavior provide a rich end-user experience on browsers and devices

PREDICTIVE ANALYTICS

LSPS provides process intelligence allowing business stakeholders to quickly navigate and analyze data

WHY CHOOSE LSPS?

LSPS is the most advanced, intelligent BPMS available today. The possibilities are literally limitless due to the power, flexibility and intelligence built into the tool set, allowing any organization to bring outcome-based business processes to life.

Whitestein has been recognized as a visionary in Gartner's highly regarded Magic Quadrant for Intelligent BPMS 2015
